PROFESSIONAL SUMMARY

Computer Science & Engineering undergraduate at United International University with hands-on experience designing, building, and deploying responsive web applications using JavaScript, HTML, and CSS. Award-winning coursework in database design and system analysis and design. Passionate about applying software engineering to agriculture and agri-technology to build practical, data-driven solutions that create real-world impact.

TECHNICAL SKILLS

Programming Languages: JavaScript, SQL

Web Development: HTML5, CSS3, JavaScript, Vite, Responsive Web Design

Databases: SQL, Relational Database Design, Data Modeling

Tools & Platforms: Git, GitHub, Vercel, CI/CD (GitHub-to-Vercel auto-deploy)

Core Concepts: System Analysis & Design, UI/UX Fundamentals, Problem Solving, Data Structures

PROJECTS

Personal Portfolio Website — HTML, CSS, JavaScript, Vercel, GitHub

- Designed and developed a responsive personal portfolio website from scratch to showcase projects, skills, and achievements.
- Implemented a CI/CD workflow by connecting GitHub to Vercel, enabling automatic production deployments on every push to the main branch.
- Live: adeeb-portfolio-lake.vercel.app | Code: github.com/Adeeb320/adeeb-portfolio

Nurture Glow — Web Application — Vite, JavaScript, HTML, CSS

- Built a modern, responsive web application with a focus on clean user interface and smooth user experience.
- Deployed and hosted the application on Vercel for fast, reliable delivery.
- Live: nurture-glow.vercel.app

Hackathon Project — Web Application — Vite, JavaScript, HTML, CSS

- Designed and shipped a functional web application under tight time constraints during a hackathon to solve a focused problem.
- Rapidly prototyped and deployed the solution on Vercel.
- Live: hackaton-drab.vercel.app

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE)

United International University — Dhaka, Bangladesh

Expected Graduation: 2027

AWARDS & ACHIEVEMENTS

- Prize Winner — Database Course Project:** Recognized for an outstanding Database course project at United International University for strong data modeling, database design, and implementation.
- Prize Winner — System Analysis & Design Project:** Awarded for excellence in a System Analysis & Design course project, covering requirements analysis, system modeling, and final delivery.

INTERESTS

Agriculture & Agri-Technology, Software Development, Building data-driven tools for farming and food systems.
